

This architectural section drawing illustrates the vertical structure of a building. The ground level is marked as ± 0.00 . Above this, two floor levels are indicated: $+14.43$ and $+15.50$. To the right, a taller section of the building is shown with a level of $+16.70$. Below the ground level, a basement or foundation level is marked as -0.60 . The drawing shows various structural components, including walls, columns, and floor slabs, with red and yellow lines highlighting specific structural paths or reinforcement. The building is situated on a hatched area representing the ground or foundation.
